Term 4

In Prep 2016

Dare to believe and achieve.
Maths

In this unit students apply a variety of mathematical concepts in real-life, lifelike and purely mathematical situations.
Number and place value - represent quantities, compare numbers, match number names, numerals and quantities, identify parts within a whole, combine collections, make equal groups, describe the joining process
Shape - describe, name and compare shapes

English

In this unit, students will have multiple opportunities to read, examine and respond to literature and explore text structure and organisation. Students will create a short imaginative multimodal text that includes illustrations.

Students will write a letter to a main character from a familiar story (Santa) and create a supporting image or illustration.

Science

This unit involves students using their senses to observe and explore the properties and movement of objects. They recognise that science involves exploring and observing using the senses. Students engage in hands-on investigations and respond to questions about the factors that influence movement. They share observations and ideas and represent what they observe. Students have the opportunity to apply and explain knowledge of movement in a familiar situation.

History

In this unit students will investigate how stories of the past be told and shared? They will share a story from their past.
